Foreword to the Index

This General Index, contained in three volumes (A to E, F to M, and N to Z), contains treatment of the 2021 legislation. Immediately following the General Index is the Index to Special, Local and Temporary Legislation, which has been updated to include material from the 2021 Regular Session.

Included in the General Index is treatment of the laws compiled in the Arkansas Code of 1987 Annotated, the constitutions of Arkansas and the United States, which are set out in the Constitutions volume, and the various rules of the state courts and state bar association, which are set out in the soft-bound Court Rules volume. Statutory provisions are referred to in the index by section number, e.g. §20-60-102. The court rules are identified by abbreviations, a table of which follows this foreword.

The index is topical, meaning the main headings represent general concepts of law or specific statutory concepts. Additionally, certain main headings may be used where the material is known by a specific legal or common term, *e.g.* Lemon Law. Under this topical arrangement, each heading contains exhaustive treatment of the subject matter, using individual entries as well as cross references to related matters.

Below are a few general rules for use of this index:

1) *Consult the principal and not the secondary subject.* For example, for information about motor vehicle registration, look under MOTOR VEHICLE REGISTRATION, and not under REGISTRATION.
2) *Consult related headings.* If your search for a heading or a sub-heading under a particular heading is to no avail, try a related topic. For example, if a search for "Inmates" under a particular heading proves fruitless, try looking for "Prisoners" or "Prisons and prisoners."
3) *Use cross references.* Cross references exist to direct you to the location where the subject matter you are seeking has been treated. Group section references (e.g. §§14-18-105 to 14-18-110) have been attached to many of our cross references as well as to many headings and sub-headings in the index. They provide the option of going directly to the statutes for the cited material, rather than delving deeper into the index.
4) *Use definitions to aid in your search.* Starting a search under the DEFINED TERMS heading presents a diverse sampling of statutory terminology which could suggest other headings to consult.

The index benefits from customer suggestions. Especially helpful are popular names or legal terms specific to your area of practice. We are grateful for your assistance in the ongoing improvement of the index. To contact the Indexing Department, you may use the following methods:

- Postage-paid cards located in the back cover of each index volume,
- E-mail to lng-cho-indexing@lexisnexis.com.
